

Lake Sagamore Association Meeting

October 30, 2022

1. Judie Stein – presented “Thoughtful Practices” – a statement of process/goals relating to the communication at meeting.
2. Minutes of 6/26/22 general meeting approved with a spelling correction.
3. Treasurer’s report – Dan Baumol – No surprises as of yet. All functioning within budgetary projections.
4. Lake committee report – Frank Schneier –
  - a. No significant changes in water quality, as per the latest report from Princeton Hydro. Going forward, the board has authorized increasing the frequency of testing incidences during the year. Also, a new beaver had been cited, but not recently. Members have been asked to report any future sightings. Nothing to do unless or until the presence of the beaver is validated.
  - b. The board reported that it has started an investigation as to the feasibility of establishing a community-wide septic cleaning and inspection service. The issue will come back to the general membership once more information is gathered.
5. Dam report –
  - a. Getz reported that we’re moving forward with replacing the syphons, including the building of a shed for storage of the pipes.
  - b. Steve Kelleher completed the tasks relating to satisfying all inspection/regulatory concerns for the fall.
6. New business –
  - a. New owners welcomed – (1) Nancy Franklin at 333 Old Forge Dr. and (2) Cynthia Hays and Charlie Cummings at 330 Old Forge Dr.
  - b. Richard Othmer (highway supervisor in Kent) is recovering from a bypass. Getz will follow up with a gesture support on the part of the Association.

Respectfully submitted,

Ira Kawaller, Secretary
